Local API Notice

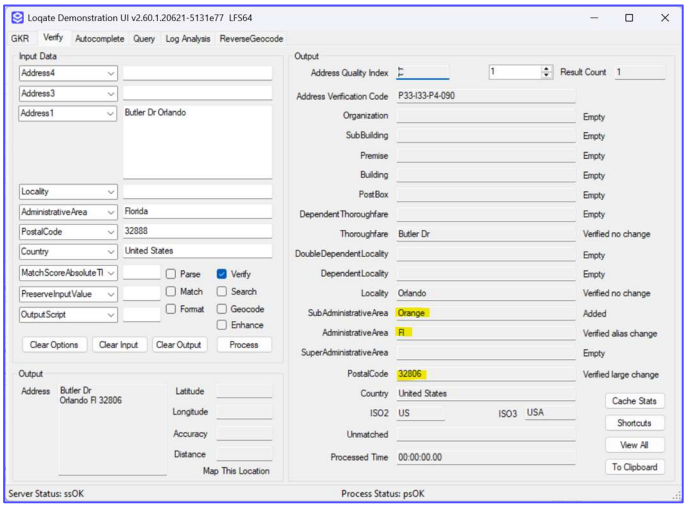

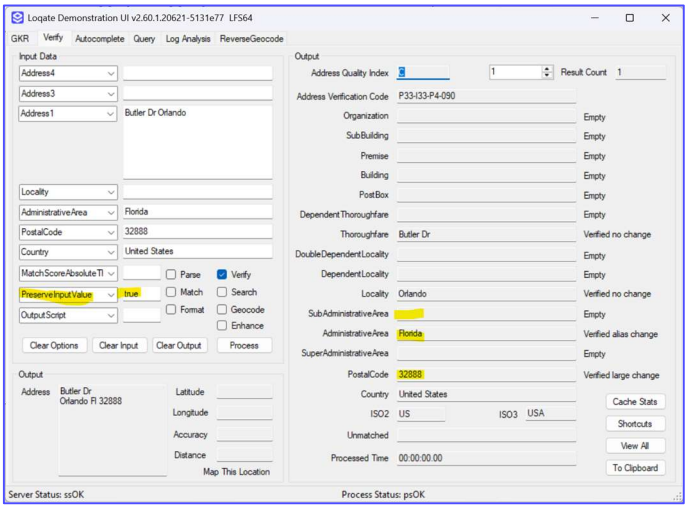

In the 2025Q4.0 release we have fixed 4 cases which improve the Verify API.

Case Resolutions

Details of the customer case resolutions are detailed below. If you would like more details on these cases, please contact LoqateSupport@gbgplc.com or your Customer Success Manager for further information.

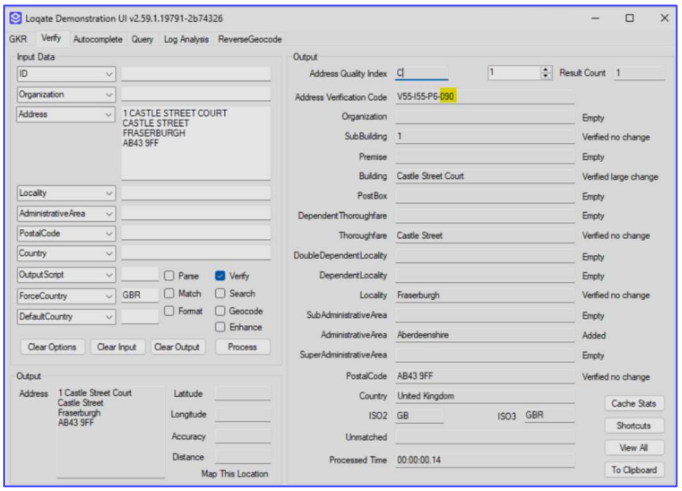

Case Number	Change Description	Country
Enhancement	Introduced a new server option, **PreserveInputValue**. When it is set to yes, true or 1, the user's input values will be preserved in the output result. It does not remove, change or add words.	All
CAS-180138-T2N3L3	Improved match score calculation.	All
CAS-179697-C5Z3F1	Improved matching of premise number in alphanumeric grid address format against reference data.	All
GBG	Improved the retrieval of AdministrativeAreaISO2 in Enhance process.	All

Installation Instructions

Please remember to update both the program files and the reference data and **please install these to a new fresh folder location**. The improvements are tied to the data in the Global Knowledge Repository and the Local API. When updating the data, it is recommended to use a new data folder each time to ensure the latest dataset is installed properly.

If you need any assistance with the upgrade of the Local API or the data update process, please contact GBG Loqate Support.

The setup wizard for the Local API can be obtained from our SFTP server. Please contact your account manager to retrieve the SFTP information. If you do not know who your account manager is please contact GBG Loqate Support.
